PROFESSIONAL SUMMARY

DevOps Engineer with 3+ years of experience in automating, deploying, and managing cloud infrastructure across AWS and hybrid environments. Experienced in building and maintaining scalable, secure, and highly available platforms using Docker, Kubernetes, Terraform, and Ansible. Skilled in developing automated CI/CD pipelines with GitHub Actions and Jenkins, infrastructure automation, and production deployments. Proficient in Linux (Ubuntu/RHEL) administration, Bash/Shell scripting, and monitoring with Prometheus, Grafana, and Zabbix to improve system reliability, performance, and operational efficiency.

TECHNICAL SKILLS

- Cloud Platforms: AWS (EC2, S3, RDS/Aurora, ALB, Route 53, IAM), Azure, GCP, DigitalOcean, and other public cloud platforms
- DevOps & CI/CD: Docker, Kubernetes, Docker Hub, GitHub Actions, Jenkins
- Infrastructure as Code: Terraform, Ansible, AWS CloudFormation
- Web Servers & Reverse Proxy: Nginx, Apache
- Automation & Scripting: Bash, PowerShell, Google Apps Script, Cron, Systemd, Supervisor
- Databases: MySQL, PostgreSQL, MongoDB (Managed & Self-Managed)
- Monitoring & Observability: Prometheus, Grafana, Zabbix, ELK Stack
- Operating Systems: Linux (Ubuntu, CentOS, RHEL), Windows
- Virtualization: VMware, Proxmox
- Networking & Security: DNS, VPC, Load Balancers, SSL/TLS, RBAC, Firewalls
- Version Control: Git, GitHub

PROFESSIONAL EXPERIENCE

DevOps Engineer

Sheba Platform Ltd – Full Time | Mohakhali, Dhaka, Bangladesh
January 2026 – Present

- Designed, deployed, and maintained scalable infrastructure across public cloud platforms and Linux.
- Built and maintained automated CI/CD pipelines using GitHub Actions and Jenkins.
- Managed containerized applications using Docker, Kubernetes, and Docker Hub.
- Automated infrastructure provisioning and configuration using Terraform, Ansible, and Bash/Shell.
- Executed production server migrations, infrastructure upgrades, database migrations, and deployments.
- Implemented monitoring and observability using Prometheus, Grafana, Zabbix, and the ELK Stack.
- Performed infrastructure hardening, security remediation, root-cause analysis, and performance optimization.
- Collaborated with cross-functional teams to deliver secure, reliable, and highly available platforms.

Deputy SOC Lead (Acting)

Sheba Platform Ltd – Full Time | Jashore, Khulna, Bangladesh
July 2025 – December 2025

- Led day-to-day SOC operations and coordinated incident response to ensure service continuity and SLA compliance.
- Guided and mentored engineers in troubleshooting production, infrastructure, and security-related incidents.
- Coordinated with vendors, development teams, and stakeholders to resolve critical operational issues efficiently.
- Drove process improvements and automation initiatives to enhance operational efficiency and incident response.

System Engineer (L1) – DevOps

Sheba Platform Ltd – Full Time | Jashore, Khulna, Bangladesh
January 2025 – December 2025

- Managed production infrastructure using Docker, Kubernetes, Linux (Ubuntu), and cloud platforms.
- Built and maintained automated CI/CD pipelines using GitHub Actions and Jenkins.
- Automated infrastructure provisioning and configuration management using Terraform, Ansible, and Bash/Shell scripting.
- Managed Docker, Kubernetes, and Docker Hub, including image versioning and registry management.
- Managed cloud networking, storage, load balancing, DNS, SSL/TLS certificates, and infrastructure resources.
- Implemented monitoring and observability using Prometheus, Grafana, and Zabbix.
- Performed root-cause analysis and resolved production incidents to ensure platform reliability.
- Collaborated with development and QA teams to support production releases, deployments, and platform improvements.

Junior System Engineer – DevOps

Sheba Platform Ltd – Full Time | Jashore, Khulna, Bangladesh
January 2024 – December 2024

- Deployed services and monitored infrastructure across development and production environments.
- Built operational dashboards using Grafana, Apache Superset, and Metabase.
- Configured monitoring and alerts for infrastructure, applications, transactions, and fraud events.
- Troubleshooting Linux, application, database, and network issues to minimize downtime.
- Managed operational tickets and coordinated with vendors using ClickUp and gPlex.
- Automated routine operational tasks using Bash/Shell scripting.
- Supported incident management, root-cause analysis, and operational reporting.

Trainee System Engineer

Sheba Platform Ltd – Full Time | Jashore, Khulna, Bangladesh
July 2023 – December 2023

- Monitored production servers, applications, and infrastructure to ensure service availability.
- Assisted in troubleshooting Linux, application, and basic network-related issues.
- Performed log analysis and basic debugging to support incident resolution.
- Coordinated with vendors and internal teams to track and resolve operational issues.
- Assisted with application deployments and routine maintenance activities.
- Take lessons about DevOps fundamentals, Linux administration, cloud infrastructure, and CI/CD concepts.

IT Support Engineer (Intern)

Walton Digi-Tech Industries Ltd – Contract | Bashundhara R/A, Dhaka, Bangladesh

June 2022 – July 2022

- Provided technical support for large-scale device monitoring initiatives (Bangladesh Population and Housing Census 2022 Project).
- Assisted in maintaining enterprise hardware and software systems.

KEY ACHIEVEMENTS

- Managed and maintained 60+ production servers across AWS and other public cloud platforms, ensuring high availability and reliability.
- Designed and implemented automated CI/CD pipelines for 50+ services using GitHub Actions and Jenkins.
- Successfully modernized and migrated 20+ production servers and legacy applications with minimal downtime.
- Performed server-to-server database migrations, ensuring data integrity and seamless service continuity.

EDUCATION

MSc in Computer Science & Engineering

Islamic University, Kushtia

2023 - 2024

CGPA 3.35 / 4.00

BSc in Computer Science & Engineering

Bangladesh University of Business and Technology - BUBT

2018 - 2022

CGPA 3.87 / 4.00

SOFT SKILLS

- Leadership & Team Collaboration
- Problem Solving & Analytical Thinking
- Rapid Learning
- Effective Communication
- Grace Under Pressure
- Knowledge Sharing

LANGUAGES

- English: Professional Proficiency
- Bangla (Bengali): Native / Full Proficiency
- Hindi: Basic / Conversational
