

MD Sayedur Rahman

DevOps Engineer

About Me

Seeking a role within a structured and growth-oriented organization where I can apply a systematic approach to problem-solving, effective collaboration, and strong organizational skills. I aim to contribute to team efficiency and decision-making processes while continuously improving my ability to perform under pressure and adapt to new challenges.

- Linux and Windows Server Administration
- Server Management – Deploy, Logs, Patching, Backups
- Design and Manage CI/CD Pipeline
- CLOUD SERVICES – AWS, AZURE, GCP

Experience

(July, 2025 – Present)

SYSTEM ENGINEER II (L1) – DEVOPS

Sheba Platform Ltd

Jashore, Khulna, Bangladesh

Responsibilities:

Maintained and optimized server and system infrastructure, managing deployments, performance tuning, and issue resolution. Designed and managed CI/CD pipelines and deployed new services for reliable releases. Managed AWS infrastructure including EC2, Aurora/RDS, S3, Route 53, load balancers, IAM, ACM, Athena etc. Built monitoring and observability setups, analyzed logs and metrics for root-cause analysis, and implemented long-term fixes. Developed automation scripts, dashboards, and reports to drive operational efficiency and continuous improvement.

(May, 2025 – Present)

DEPUTY DOC LEAD (ACTING)

Sheba Platform Ltd

Jashore, Khulna, Bangladesh

Responsibilities:

Oversaw security operations and team workflows, ensuring efficient operations, service continuity, and rapid issue resolution. Led internal projects, guiding team from planning to execution and aligning deliverables with business objectives. Troubleshoot technical issues, optimized processes, and prepared reports to provide actionable insights to management.
