

MD SAYEDUR RAHMAN

Address: Mirpur-2, Mirpur, Dhaka, Bangladesh

Mobile No: 01788790001

Email: srsayed2677@gmail.com

Career Objective:

Seeking a role within a structured and growth-oriented organization where I can apply a systematic approach to problem-solving, effective collaboration, and strong organizational skills. I aim to contribute to team efficiency and decision-making processes while continuously improving my ability to perform under pressure and adapt to new challenges.

Employment History:

1. System Engineer II (L1)

(July, 2025 – Present)

Sheba Platform Ltd

Jashore, Khulna, Bangladesh

Duties/Responsibilities

- Maintained and enhanced server and system infrastructure, including deployment, configuration, performance tuning, and issue resolution.
- Designed, implemented, and managed monitoring systems and dashboards using Superset, Metabase, Grafana, Prometheus, cAdvisor, CloudWatch, and Zabbix for proactive incident detection and performance insights.
- Conducted codebase reviews to identify potential performance, scalability, and security issues before deployment.
- Analyzed server logs and system alerts, diagnosing issues and implementing solutions to ensure seamless performance and security.
- Developed automation scripts and process improvements to enhance operational efficiency and reduce manual effort.
- Administered VPN access and user permissions, ensuring secure and efficient network connectivity.
- Managed and resolved tickets via ClickUp and gPlex, coordinating with vendors and management for timely issue resolution.
- Prepared daily, weekly, and incident reports on system performance, errors, and resolutions, supporting continuous process improvement.

2. Deputy DOC Lead (Acting)

(May, 2025 – Present)

Sheba Platform Ltd

Jashore, Khulna, Bangladesh

Duties/Responsibilities

- Coordinate closely with the SOC Lead to oversee security operations and ensure efficient workflow across the team.
- Supervise and support all business unit operations, ensuring seamless functionality and quick issue resolution.
- Troubleshoot and resolve technical issues affecting any business unit, maintaining service continuity.

- Lead and manage internal projects as Product Manager, from planning to execution, ensuring alignment with business objectives.
- Coordinate tasks and priorities across teams, ensuring timely completion of deliverables.
- Prepare and deliver operational reports to management, highlighting key activities, incidents, and performance insights.

3. System Engineer I (L1)
(January, 2025 – June, 2025)

Sheba Platform Ltd
Jashore, Khulna, Bangladesh

Duties/Responsibilities

- Deployed services, monitored server logs, diagnosed issues, and implemented solutions to ensure seamless system performance and security.
- Leveraged database expertise to retrieve and analyze data for troubleshooting, debugging, and effective problem resolution.
- Developed and maintained Superset and Metabase dashboards to provide insights into system performance, incidents, and key metrics, supporting operational decisions.
- Administered VPN access and user permissions, ensuring secure and efficient network connectivity.
- Developed automation scripts to streamline processes and improve team efficiency.
- Monitored transaction, fraud, and system alerts, taking immediate corrective actions to maintain platform integrity.
- Served as the primary technical liaison for vendors and management, coordinating issue resolution and providing operational insights.

4. Junior System Engineer
(February, 2024 – December, 2024)

Sheba Platform Ltd
Jashore, Khulna, Bangladesh

Duties/Responsibilities

- Monitored and analyzed system alerts (transaction, fraud, server errors), ensuring rapid troubleshooting and minimizing downtime.
- Conducted proactive system health checks across servers, AWS VPNs, and applications, maintaining high availability and performance.
- Diagnosed and resolved complex hardware, software, and network issues, implementing effective solutions to prevent recurrence.
- Managed support tickets via ClickUp and gPlex, coordinated with vendors for technical resolution, and ensured secure access control for stakeholders.

5. Trainee System Engineer
(July, 2023 – January, 2024)

Sheba Platform Ltd
Jashore, Khulna, Bangladesh

Duties/Responsibilities

- Monitored transaction, fraud, and system alerts, ensuring timely identification and resolution.
- Performed routine system health and performance checks, including server status, VPNs, proxies, and application uptime.
- Diagnosed hardware, software, and network issues, escalating complex problems to senior engineers when required.
- Managed support tickets and contributed to reporting on system performance and incident resolution.

6. IT Support Engineer

(June, 2022 – July, 2022)

Walton Digi-Tech Industries Ltd

Bashundhara R/A, Dhaka

Duties/Responsibilities

- Monitoring 3.97 lakhs Walton Tab by VMware workstation for the project of BBS (2022) with troubleshooting issues and providing technical support.
- Support the IT team in maintaining hardware, software and other systems.

Academic Qualification:

Master of Science (MSc) in Computer Science & Engineering

Islamic University

CGPA: 3.35 out of 4

2024 (1 year)

Bachelor of Science (BSc) in Computer Science & Engineering

Bangladesh University of Business and Technology (BUBT)

CGPA: 3.87 out of 4

2022 (4 years)

Higher Secondary Certificate (HSC) in Science

Satkhira Govt. College

CGPA: 4.00 out of 5

2017 (1 year)

Secondary School Certificate (SSC) in Science

Rasulpur Secondary School, Satkhira

CGPA: 5.00 out of 5

2015 (1 year)

Achievements:

Published Conference Paper

Paper Title: Comparison of Different CNN Model used as Encoders for Image Captioning

DOI: [10.1109/ICDABI53623.2021.9655846](https://doi.org/10.1109/ICDABI53623.2021.9655846)

Published Conference Paper

Paper Title: To Predict Customer Churn By Using Different Algorithms

DOI: [10.1109/DASA54658.2022.9765155](https://doi.org/10.1109/DASA54658.2022.9765155)

Published Conference Paper

Paper Title: Bahdanau Attention Based Bengali Image Caption Generation

DOI: [10.1109/DASA54658.2022.9765268](https://doi.org/10.1109/DASA54658.2022.9765268)

Specializations:

Fields of Specializations

- System Administration
- DevOps
- Cloud Infrastructure & Virtualization
- Database Management & Query Optimization
- Cybersecurity & Incident Response
- Problem Solving & Analytical Thinking
- Project Management

- Operations Leadership

Skills:

Technical Skills

- Linux and Windows Server Administration
- Server Management – Deploy, Logs, Patching, Backups
- CI/CD Pipeline Management
- Cloud Services – AWS, Azure, GCP
- Virtualization and Containers – VMware, Proxmox, Docker
- Git and GitHub for Source Control and Collaboration
- Database Querying for Debugging and Analysis
- Monitoring Dashboards – Superset, Metabase
- Monitoring Tools – Grafana, Prometheus, cAdvisor, CloudWatch, Zabbix
- System Monitoring and Incident Response
- Automation and Scripting – Google Apps Script, Bash Script
- Network Configuration – Routers, Switches, Firewalls
- Project and Ticketing Tools – ClickUp, Jira, gPlex
- CC Dialer – gPlex, Digicon

Soft Skills

- Leadership & Decision Making
- Problem Solving & Analytical Thinking
- Teamwork & Communication
- Adaptability & Collaboration
- Time Management
- Incident Reporting
- Attention to Detail

Programming:

Programming Language: C, C++, Python, PHP, Javascript, Bash Script.

Solved many problems from URI, UVa, Codeforces, HackerRank etc.

Projects:

Industrial Projects

Dialer System Transition - gPlex to Digicon (July 2025 – August 2025)

Role: Project Manager

Sheba Platform Ltd

Jashore, Khulna, Bangladesh

- Led the end-to-end migration from the legacy dialer system to a modern, high-performance platform, ensuring zero downtime and minimal user disruption.
- Coordinated with cross-functional teams (technical, operations, vendor) to align project goals, timelines, and deliverables.
- Managed vendor communication, procurement, and integration processes for the new dialer system.
- Oversaw system configuration, user access control, and integration with CRM, analytics, and reporting tools.
- Conducted UAT (User Acceptance Testing) and system validation to ensure operational readiness and compliance with company standards.
- Created training materials and conducted knowledge transfer sessions for business users.
- Monitored post-implementation performance, handled early-stage issues, and optimized workflows for improved efficiency.

- Negotiated and signed Service Level Agreements (SLAs) with the vendor, defining clear performance, support, and maintenance commitments.
